EDUCATION

PhD in Ecology and Evolution (Aquatic Ecosystems) — 2026 Universidade do Estado do Rio de Janeiro (UERJ), Brazil

MSc in Biodiversity (Limnology) — 2021 Universidade Federal do Estado do Rio de Janeiro (UNIRIO), Brazil

BSc in Biological Sciences — 2019 Universidade Federal de Mato Grosso (UFMT), Brazil

PROFESSIONAL EXPERIENCE

LED Consultoria Ambiental, Brazil | 2022 – Present

Environmental Consultant.

- Designed and implemented hydrochemical and biological monitoring programs for environmental impact assessments and regulatory processes.
- Conducted field surveys and coordinated environmental data collection following QA/QC protocols and sample traceability procedures.
- Analyzed hydrochemical and biological datasets (phytoplankton, zooplankton, macroinvertebrates and fish) to identify spatial and temporal environmental patterns.
- Assessed freshwater ecosystem condition using hydrochemical and biological indicators to support environmental licensing and management
- Developed automated workflows in R and Excel for data validation, visualization and reporting.
- Synthesized technical findings into reports, presentations and visual materials for clients and regulatory stakeholders.

University of Nebraska–Lincoln, USA | Nov 2023 – Nov 2024.

Visiting Researcher.

- Conducted research on aquatic biogeochemistry and water quality, integrating biological data and geochemical modeling.
- Designed and implemented multi-site hydrochemical sampling campaigns and ensured data quality control.
- Applied statistical and geochemical tools (PHREEQC) to analyze environmental processes and water chemistry patterns.
- Communicated research findings in English through reports, presentations and discussions with interdisciplinary teams.
- Translated complex environmental data into clear insights for research and project teams.

TECHNICAL SKILLS

- **Data Analysis & Statistics:** Statistical analysis, environmental data modeling, pattern detection, uncertainty analysis
- **Programming & Tools:** R (advanced), Excel / Google Sheets, PHREEQC, workflow automation
- **Data Management:** Data cleaning, QA/QC protocols, dataset validation, monitoring systems
- **Data Visualization & Communication:** Data visualization, dashboards, technical reporting, presentations, stakeholder communication

LANGUAGES

- Portuguese - Native
- English – Fluent
- Spanish -Intermediate
